To * the * Trade.

Imitation is the concession which Failure makes to Success. Our line of Art Garland Base Burners has created more excitement amongst Manufacturers and the Trade generally than any other Stove that has ever been produced in Canada. Our patrons may rest assured that we will keep ahead of the efforts that are being made to compete with us.

Respectfully yours,

Bowes, Jamieson & Co.

TERMS

Bank note at four months or six per cent. off for Cash within thirty days from first of following month in which goods are shipped; four per cent. off within sixty days; two per cent. off within ninety days.

Goods shipped in July, August and September months will date from 1st of October.

Having special freight rates we are able to deduct freight at time of shipment.

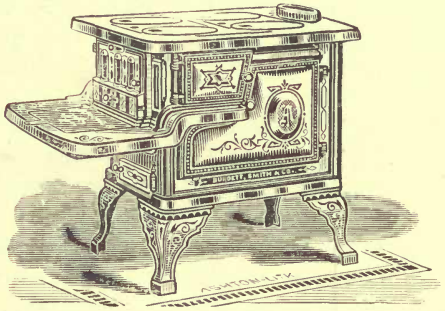
Should any discrepancy occur between the amount of freight paid and amount we credit on invoice, customers must notify us at once, so that correction can be made.

All claims for shortages must be made on receipt of goods.

We ship all goods at "owner's risk" unless specially instructed to the contrary, and our responsibility ceases after receiving carrier's receipt, "shipped in good order."

THE ARCHER.

Fire Box, 25 in. Oven, 20 x 20.



FOR WOOD.

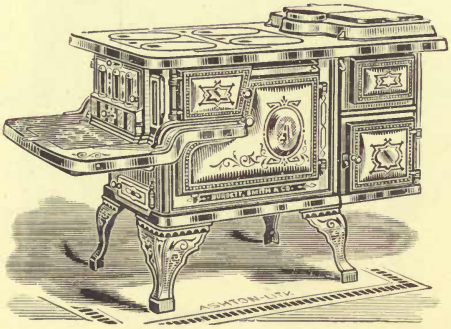
No. 9 Square..... $19 27

With Plain Knobs, Ornaments and Polished Edge.

This is a good selling stove, where something low in price is needed. It has double fire bottom, cut top, heavy lids and centres, and extra large hearth. It is the best and most satisfactory operating Stove of its kind ever made.

THE ARCHER.

Fire Box, 25 in. Oven 20 x 20.



FOR WOOD.

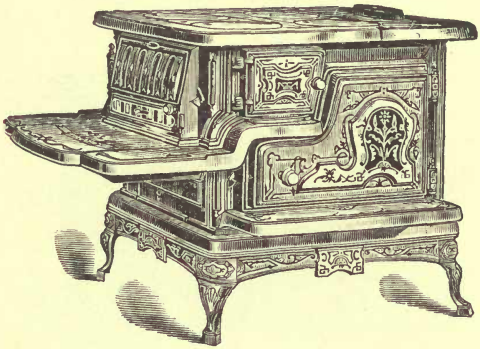
No. 9, with Iron-Clad Copper Reservoir and Warming Closet. $27.37

With Plain Knobs, Ornaments and Polished Edge.

The Reservoir of the Archer is unequalled. The heat passes under and all around this reservoir, and is so perfectly controlled by a damper that water can be kept at any temperature, and be made to boil in ten minutes.

THE BURDETT.

8 and 90 Oven,	20 x 22.	8 and 90 Fire Box,	25 in.
9 "	22 x 24.	9 "	28 in.



FOR WOOD.

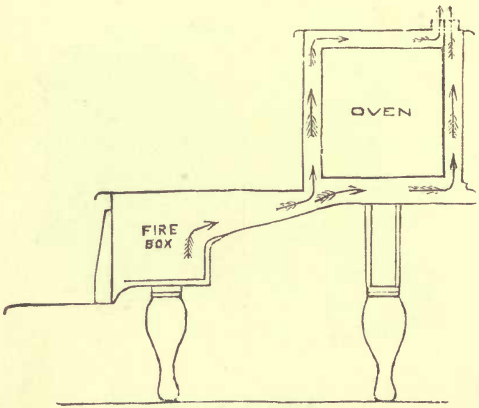
DIRECT OR CUT-OFF

ELEVATED OVEN STOVE

IN ONE.



We guarantee this stove to bake faster than any elevated oven stove in the market.

The damper on top of stove gives complete control of the fire, doing away with all necessity for a damper in the smoke pipe.

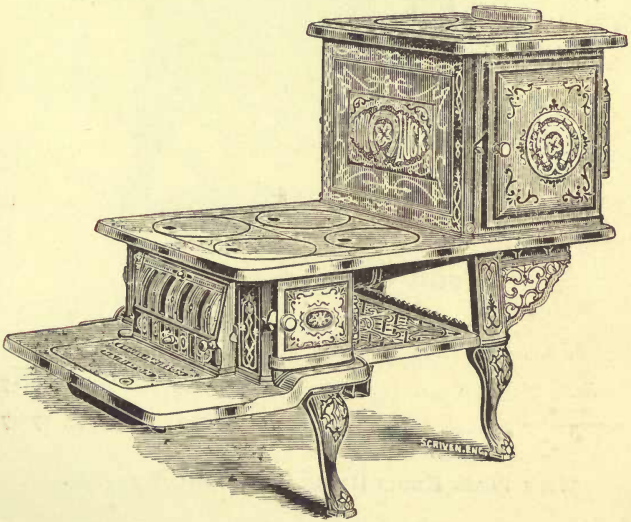
We authorize dealers to guarantee every stove sold.

The Good Luck has met with unprecedented success as a direct or cut-off elevated oven stove in one, and has distanced all opposition in its line.

THE GOOD LUCK.

ELEVATED OVEN.

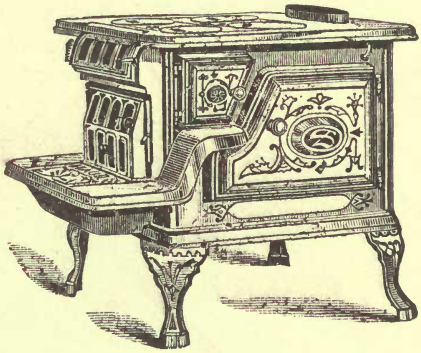
Oven, 14 x 14 x 26. Fire Box, 27½ in.



No. 9.....$21 75

With Nickeled Knobs, Hinge Pins and Ornaments, Tin Lined Doors and Polished Edges, Heavy Covers, Centres and False Bottom.

THE SURPRISE.



FOR COAL OR WOOD.

No. 8, Square	.....	$15 07
" 88, "	.....	17 17
" 9, "	.....	17 47

With Plain Knobs Hinge Pins and Ornaments.

A cheap, economical stove, and a first-class baker. The reputation of our Surprise Cook Stoves is firmly established. We predict for them increased sales and still greater popularity.

THE

DOMESTIC GARLAND

THE FINEST AND BEST STOVE OF ITS CLASS!

We claim the following points of advantage:

Greater weight and durability than any other stove of the same size.

Larger flues than any other stove of its price.

Extra heavy double centres, double and cut long centres.

The grate is the best ever put in a coal stove, and can be shaken EASILY, no matter how much coal there may be in the fire box. It is hinged at and dumps from the back and dumps the entire contents of the fire box directly into the ash pan; in dumping, a knob has only to pushed from the outside; no dust can escape into the room during the dumping process. We claim greater durability than for any coal grate, it being heavier than any other, and being cast almost solid for an inch or more next the fire brick.

Rods mounted outside of stove.

Top made in four pieces.

Best feed door, combining advantages of pouch and broiling door feed.

Best and easiest flue-cleaning arrangement.

Hot-blast draft.

Extra large, smooth, pull-out hearth.

Large ash-pan.

Handsomest design.

Best mounting.

Best proportions.

The reservoir and closet can be instantly attached to a square stove, making it a complete reservoir stove. This is a good point for our customers. Our patrons cannot make too strong a point of this special and exclusive feature.

This stove at once leads all competition wherever introduced. It can be relied upon in every instance to give the most perfect satisfaction.

We guarantee every stove.

The Standard is a first-class heavy box stove, handsome in appearance and design, and low priced. It has cook stove top, flush hearth and large feed door.

The * Art * Garland.

IMITATION IS THE CONCESSION WHICH FAILURE MAKES TO SUCCESS.

The Art Garlands are not experiments but the originals of their class and the models from which all imitations have been made.

The construction of this stove is simple, while it is a powerful and economical heater. No change has been made in the general construction for the season of 1886. The new top, ornamental base, front door, foot rails, etc., have been so improved as to be really beautiful beyond comparison and a great deal more attractive than last season.

We have spared no expense in producing the Art Garland, and in providing the trade with the most practical, novel and attractive stove ever put upon the market.

We have patented the double heating attachment, which makes every stove a double heater without extra cost.

The Art Garland cannot be surpassed in durability, successful operation and heating qualities.

Special * Points * of * Merit.

The heat from the bottom in other stoves is held in by the leg base, in this, every part slopes upward, and the air from every inch of surface flows out at the rear.

The sides of the bottom flues are, in other stoves, covered by the bottom base ; in this they are outside and radiate heat.

Double Ash Pit flue.

Large Ash Pan 15 inches square in medium size.

The Edges are hollow and part of the flues.

Grate is accessible from all sides of the stove.

The Flues are large.

Full illumination at sides and front of fire-pot, letting fully one third more of the radiant heat out through the mica lights than can come through cast iron.

The Tea Kettle Hole is a clear 7 in. and on oven stove a clear 8 in.

The oven is heated by three flues and is very much larger than that found in Parlor Cook stoves.

The Drum Section is portable and a current of air keeps the nickle from tarnishing.

The Magazine is closed by two independent covers which slide off with one movement.

EVERY STOVE IS A DOUBLE HEATER.

And we are safe in saying that this is the greatest heater yet made, in point of operation, illuminating and heating power and elaborate fiuish.

We claim that the Art Garland will give more heat with less fuel than any other stove in the market, and it is certain to outsell every imitation.

We authorize our customers to guarantee every stove sold.

The * Art * Garland * "B."

We lead the trade in Art stoves, and have produced the Art Garland "B," a medium price base heater, which is strictly first-class in every particular.

The operative qualities of the "Art Garland" have all been presented in this stove, and the forms and general out lines are practically the same.

Its general style and beauty will recommend it to the trade.

We have added beautiful new top, fancy base, and foot rails. We defy competition with this stove.

Its illuminating and heating power is far in excess of any stove of a similar size.

Our customers will observe that with this additional line, we offer the largest and most complete series of "Art" stoves on the market.

Our "Art" Garland stoves will always be kept in the lead.

The * Art * Garland * "B."

We have added to the 33, 44 and 55 Art Garlands, a very handsome nickel plated dome section, as shown in cut, to fit over the top similar to the 2, 3 and 4 Art Garlands.

This addition makes the Art Garland "B" series equal in style and appearance to the best low round base burners, and the price defies competition.
